

CHAITHRA SHREE P

Chaithrashreep00@gmail.com | Phone: 9980270386 | R T Nagar, Bangalore

Passionate and self-motivated final-year engineering student with a strong foundation in software development, AI/ML, Data analytics and full-stack web technologies. Seeking a full-time position to leverage my technical skills and problem-solving abilities in a dynamic environment.

Technical Skills

- **Programming Languages:** Python, JavaScript, TypeScript, C
 - **Web Development:** React.js, Node.js, Flask, Vite, Three.js, Chart.js, Material UI
 - **Databases:** MongoDB Atlas, Compass
 - **AI/ML:** PyTorch, YOLOv8, Basics of CNN, LSTM, OpenCV and Tensorflow
 - **Data Visualization & Analytics:** Excel, Tableau, Power BI
 - **Tools & Platforms:** Git, VSCode, Notion, Figma, Jupyter notebook, Google Colab
 - **Other Tools :** Basics of Microsoft Entra ID and Azure Active Directory. [Identity and Access Management]
-

Work Experience

- Interned at **Nokia Solutions and Networks**, Manyata Tech Park, Bangalore.
- Duration – **8th SEP 2025 to 24th JULY 2026.**
- Department – **DIGITAL OFFICE** [workstation and devices, M365]
- **Handled Software testing** of the company's own URL SHORTENER application
- **Created support guides** for Linux and Windows security applications

Projects

1. **AI-Powered Vehicle detection and integrated parking router application** (Hackathon Project)

- Developed a **YOLOv8-based vehicle detection** system to count and classify vehicles in real-time.
- Built an integrated system to detect the vacant parking spaces for the vehicle
- Built a dashboard to keep a track of vehicles coming in and out and duration of presence.

2. **Finance management application** (24hr Hackathon project)

- A finance tracker that helps track everyday expenses and jars to save for long term goals
- Integrated **LSTM model** to analyse the progress in savings and expenditure
- Worked on predicting the projected savings for long term.

3. **Tokenized Incentives for using public transport** (Final year major project)

- Developed a blockchain-based reward platform that incentivizes public transport usage by issuing digital tokens for verified trips using QR/GPS validation.
 - Built backend services with Node.js and MongoDB and integrated frontend interfaces through REST APIs for real-time trip tracking and token management.
-

Publications & Conferences

- **Paper Title:** *AI-Powered Computer Vision Models*
- **Published in:** 2nd BIS Souvenir 2024 (BIS2024)
- **Conference:** Presented at BEL- IETE Symposium 2024 on Artificial Intelligence, Cyber Security, IOT and Aerial Vehicle Systems for Next Generation hosted by IETE [Institution of Electronics and Telecommunication Engineers] at the BEL Academy of Excellence [Bharat Electronics Ltd]

Achievements & Certifications

- Got selected as one of the top 30 groups at National-Level 24-Hour Hackathon. [SIH INTERNAL HACKATHON]
- **Won 2nd prize in Idea-thon Competition** at college level Technical Fest. [Udhyukta]
- Received Google's "**Introduction to Generative AI**" badge
- Received 1st place in the In-college "Mock interview" competition

Extracurricular Activities

- Passionate about **music, dance [trained classical dancer]**
- Head of the "Git-hub club" at Sri Venkateshwara College of Engineering
- Active in **technical communities and hackathons.**
- Loves **Hosting events**, successfully hosted more than 10 events at department and college level.

Soft-Skills

- Adaptability, problem-solving & analytical thinking
- Quick Learning, Team collaboration and Leadership

Education

Sri Venkateshwara College of Engineering, Bangalore
Bachelor of Technology in Computer Science and Artificial Intelligence

[2022-2026]
Current CGPA:8.37
